

Saint Lucia is located in the hurricane belt and the earthquake radius of a fault line. In addition to hurricanes, floods, landslides and earthquakes, man-made disasters like accidents, fire, electrical, water damage and theft can occur at any time. So whether you are a home-owner, car-owner or a renter with valuable furniture and/or appliances, it is smart to take insurance and risk management seriously.

Seek out the best coverage to suit your needs. Remember, skimping on coverage now can cost you more in the long run. Always read your policy contract carefully to ensure it covers you where it counts most and raise any questions or concerns before you sign. As your lifestyle changes, make sure your insurance keeps up and is updated if needed. To ensure that you remain fully covered at that critical moment when you need insurance most, make sure to pay your premiums on time. Even though you may have insurance, always take every measure to protect your home and belongings

EC Global Insurance Company Limited will be happy to give you any further advice on policies and procedures. Please feel free to call one of our friendly customer service representatives at: 456-6249
